For office in Skopje we are currently looking for:

Project Manager

Main task and areas of responsibility:

- Direct and manage project development from beginning to end.
- Define project scope, goals and deliverables that support business goals in collaboration with senior management and stakeholders.
- Develop full-scale project plans and associated communications documents.
- Effectively communicate project expectations to team members and stakeholders in a timely and clear fashion.
- Liaise with project stakeholders on an ongoing basis.
- Estimate the resources and participants needed to achieve project goals.
- Where required, negotiate with other team leaders for the acquisition of required personnel from within the company.
- Determine and assess need for additional staff and make the appropriate recruitments if necessary during project cycle.
- Set and continually manage project expectations with team members and other stakeholders.
- Delegate tasks and responsibilities to appropriate personnel.
- Identify and resolve issues and conflicts within the project team.
- Identify and manage project dependencies and critical path.
- Plan and schedule project timelines and milestones using appropriate tools.
- Track project milestones and deliverables.
- Develop and deliver progress reports, proposals, requirements documentation, and presentations.
- Determine the frequency and content of status reports from the project team, analyze results, and troubleshoot problem areas.
- Proactively manage changes in project scope, identify potential crises, and devise contingency plans.
- Define project success criteria and disseminate them to involved parties throughout project life cycle.
- Coach, mentor, motivate and supervise project team members, and influence them to take positive action and accountability for their assigned work.
- Build, develop, and grow any business relationships vital to the success of the project.
- Conduct project post mortems and create a recommendations report in order to identify successful and unsuccessful project elements.

Desired Skills and Experience Characteristics:

- Bachelor's degree with some background knowledge or experience in IT industry
- Familiar with and practices Project Management methodology
- Experience in project management managing IT projects is preferred, but is not a MUST
- Working experience with MS Office and Project Management tools
- Strong communication skills
- Excellent written and oral communication and presentation skills in English
