

As one of the winners of call for co-financed grants for commercialization of innovations by the **Fund for innovations and technology development**, Blue Zone is planning to involve students as the best creative and innovative force in the process of the creation and implementation of this project.

Our new project **Digital transformation platform** is based on state-of-the-art BPM (Business Process Management), ECM (Enterprise Content Management) and ML/AI (Machine Learning/Artificial Intelligence) practices and technologies. This platform is designed for rapid and scalable advanced web-based data / process-based solutions and their easy integrated implementation in public Microsoft Azure Cloud, through an appropriate SaaS (Software-as-a-Service) and aPaaS (application Platform-as-a-Service) option.

For this project, Blue Zone in Skopje is opening a call for

2 (two) student practice positions

You should apply if you are: 3rd or final year of studies

You will be working on:

- Latest technology stack
- .NET Core
- Blazor front-end framework
- n-tier SOA and microservice architecture
- DevOps CI/CD
- Azure Cloud

Timetable of practice hours

- from 09:30 to 13:30 (four hours a day)

What's in it for you

- Paid student practice **6.000 MKD** (net amount)
- Excellent and cozy environment
- State-of-the-art hardware equipment
- Various benefits (free meals, coffee, refreshments)
- Relax room

Location

Our business premises are located on bul.Kuzman Josifovski Pitu No.15 (Neocom building, 5th floor).

If this sounds interesting, challenging and you have the desire to be part of Macedonian project for the global market, send us your CV on internship@bluezone.com.mk

This call for student practice ends on 25.02.2020.
